A Series

Deutsch

Die A-Serie ist als Universalziel gedacht.

Die Zielmarken bestehen aus einem roten Punkt in Projektilgröße, einem oder mehreren Kreisen und horizontal und vertikal ausgerichteten Orientierungslinien.

An der rechten Seite ist ein Zentimeterstab abgebildet.

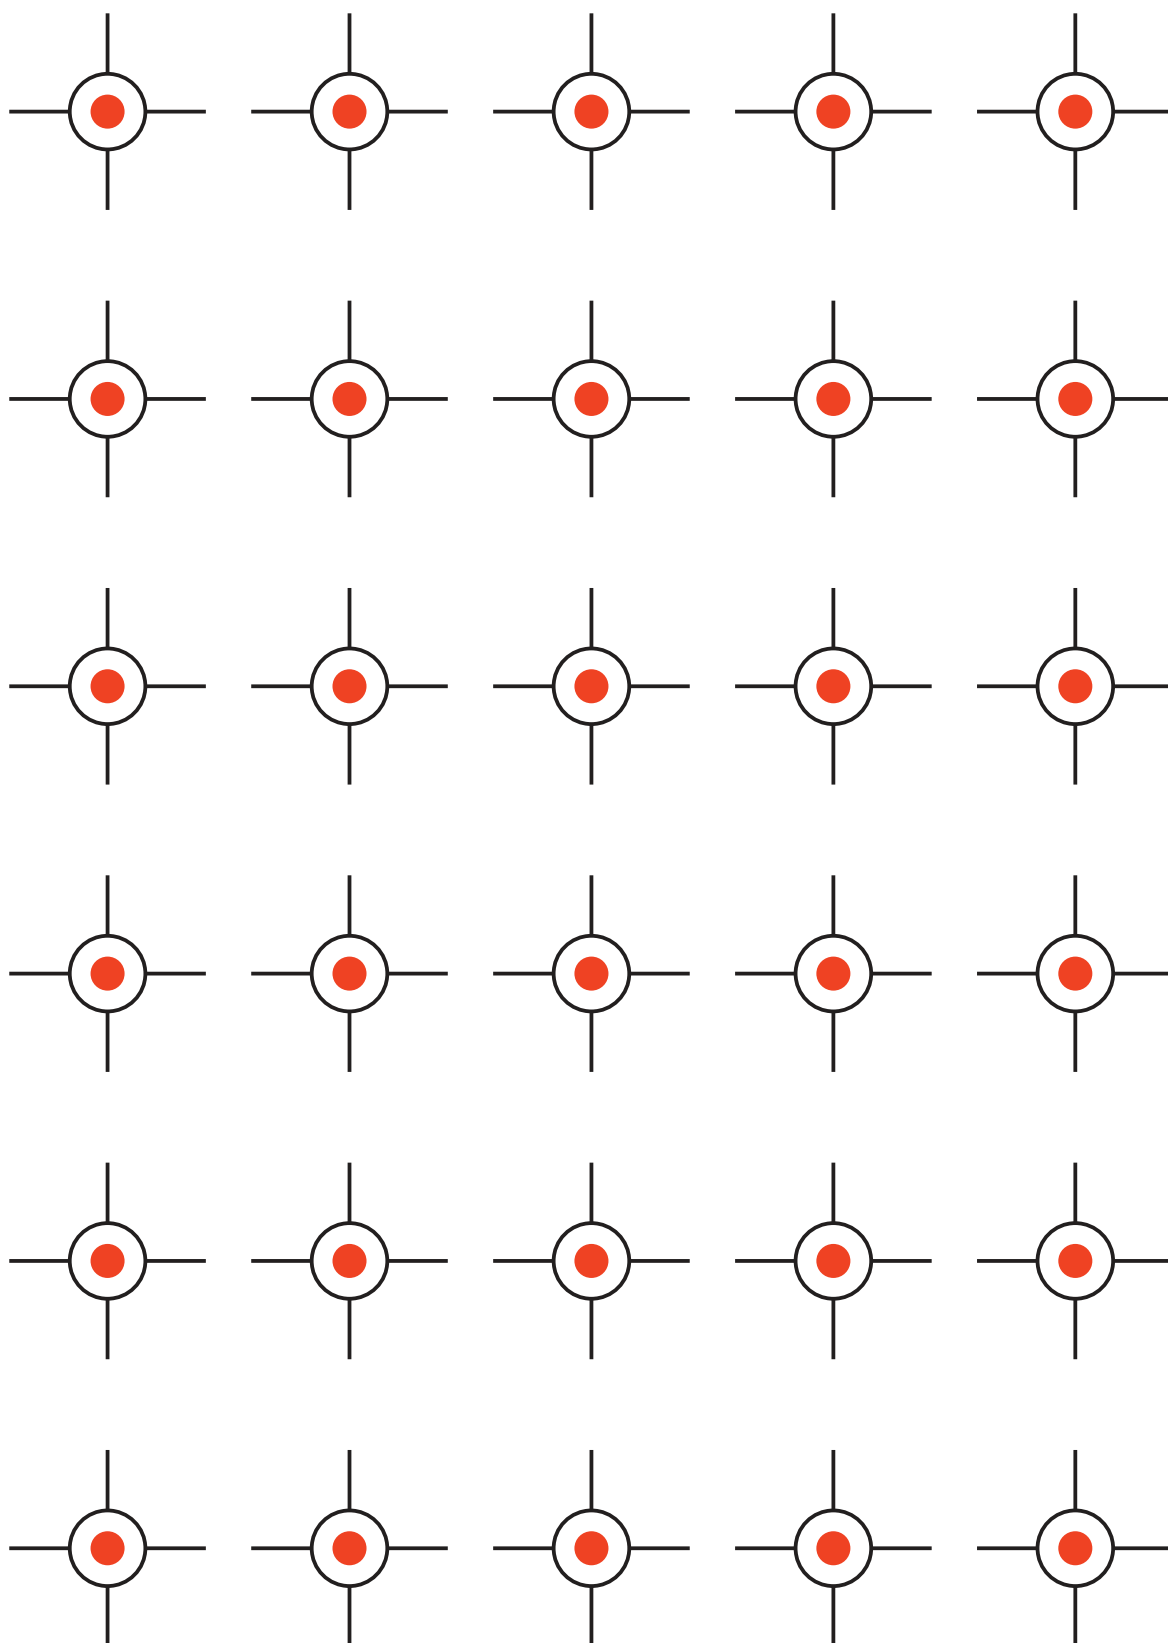

English

The A series is intended for universal targets.

The mark consists of a red dot the size of a projectile, one or multiple circles, and horizontal and vertical aligned lines as orientation.

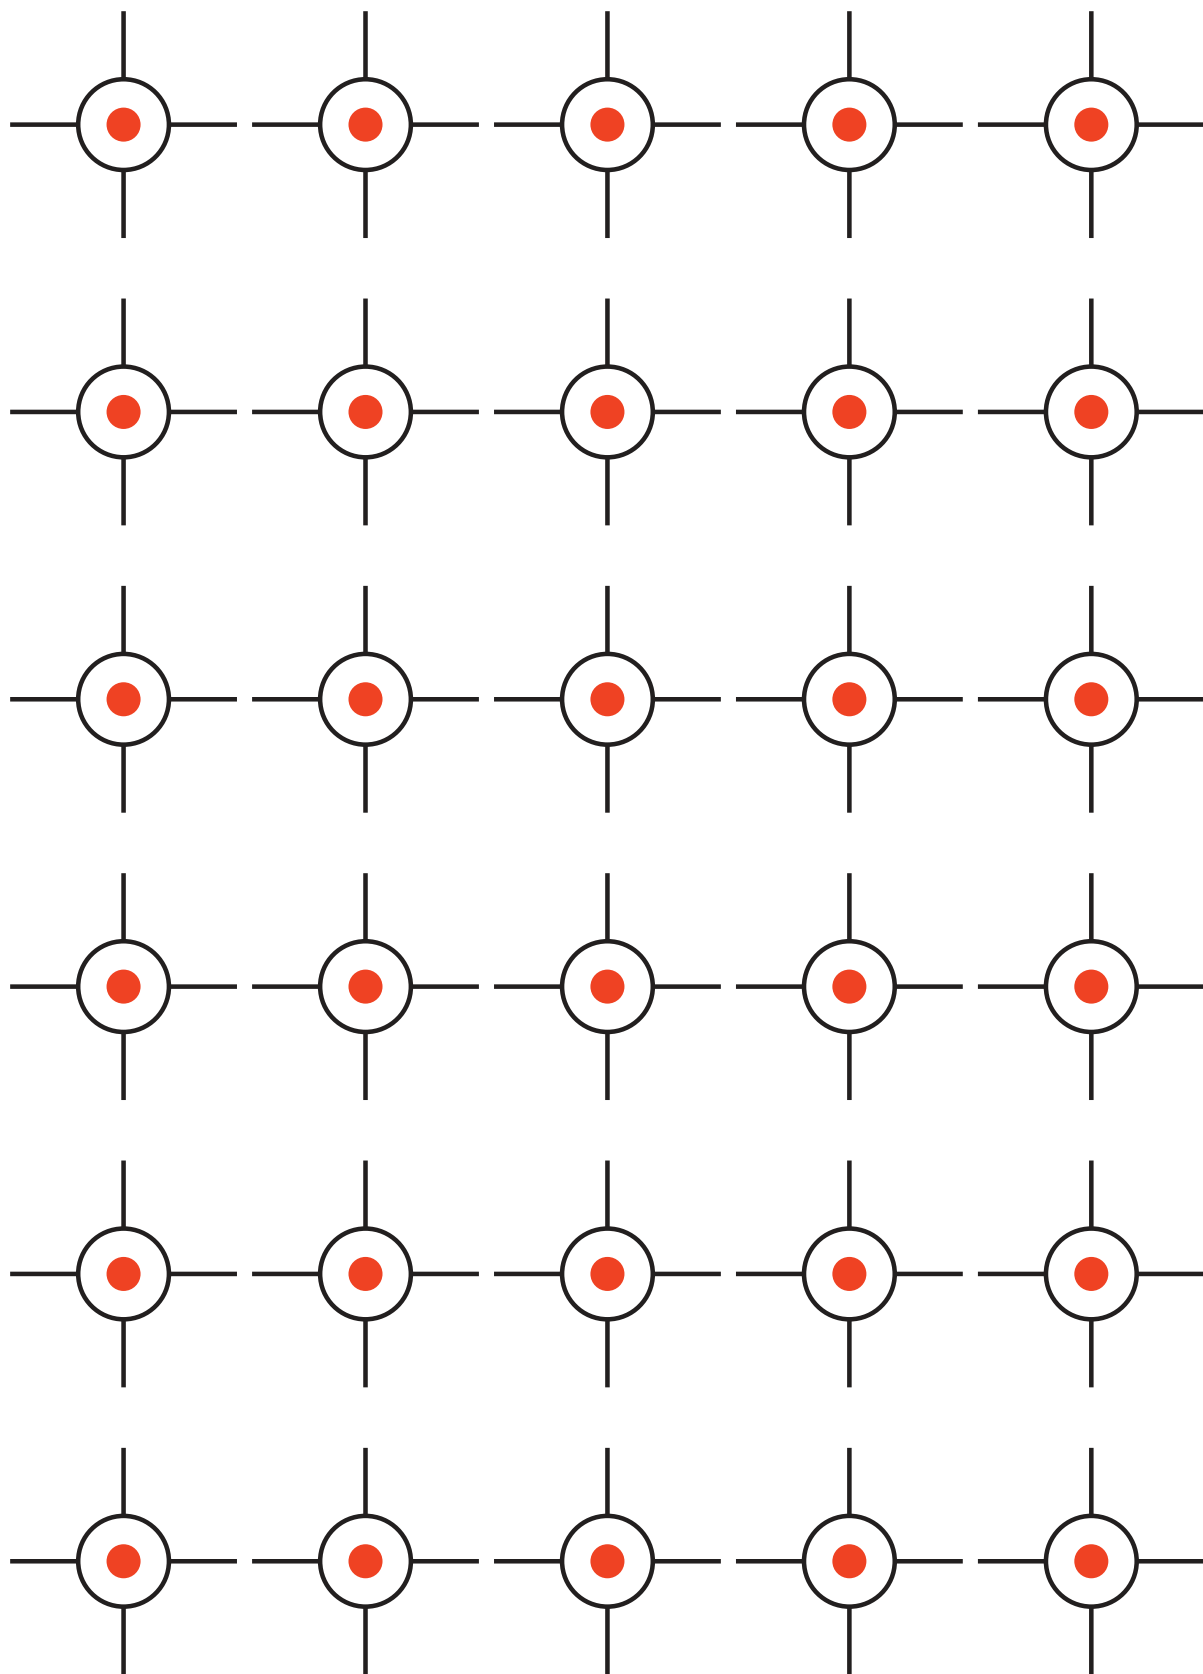

On the right side a centimetre rule is included.

B Series

Deutsch

Die B-Serie ist wie die A-Serie als Universalziel gedacht.

Die Zielmarken bestehen aus einem roten Punkt in Projektilgröße, einem oder mehreren Kreisen und horizontal und vertikal ausgerichteten Orientierungslinien.

Zusätzlich sind die Spalten und Zeilen der Zielmarken für eine bessere Kommunikation und Dokumentation beschriftet.

An der rechten Seite ist ein Zentimeterstab abgebildet.

English

The B series, like the A series, is intended for universal use.

The mark consists of a red dot the size of a projectile, one ore multiple circles, and horizontal and vertical aligned lines as orientation.

Additionally the columns and rows of the target marks are labelled for better communication and documentation.

On the right side a centimetre rule is included.

C Series

Deutsch

Die C-Serie ist wie die B-Serie als Universalziel mit Unterstützung für bessere Kommunikation und Dokumentation gedacht.

Die Zielmarken bestehen aus einem roten Punkt in Projektilgröße, einem oder mehreren Kreisen und horizontal und vertikal ausgerichteten Orientierungslinien.

Die Spalten und Zeilen der Zielmarken sind beschriftet.

Für die Sparfüche unter den Schützen wird der Leerraum durch zusätzliche kleinere Ziele genutzt.

English

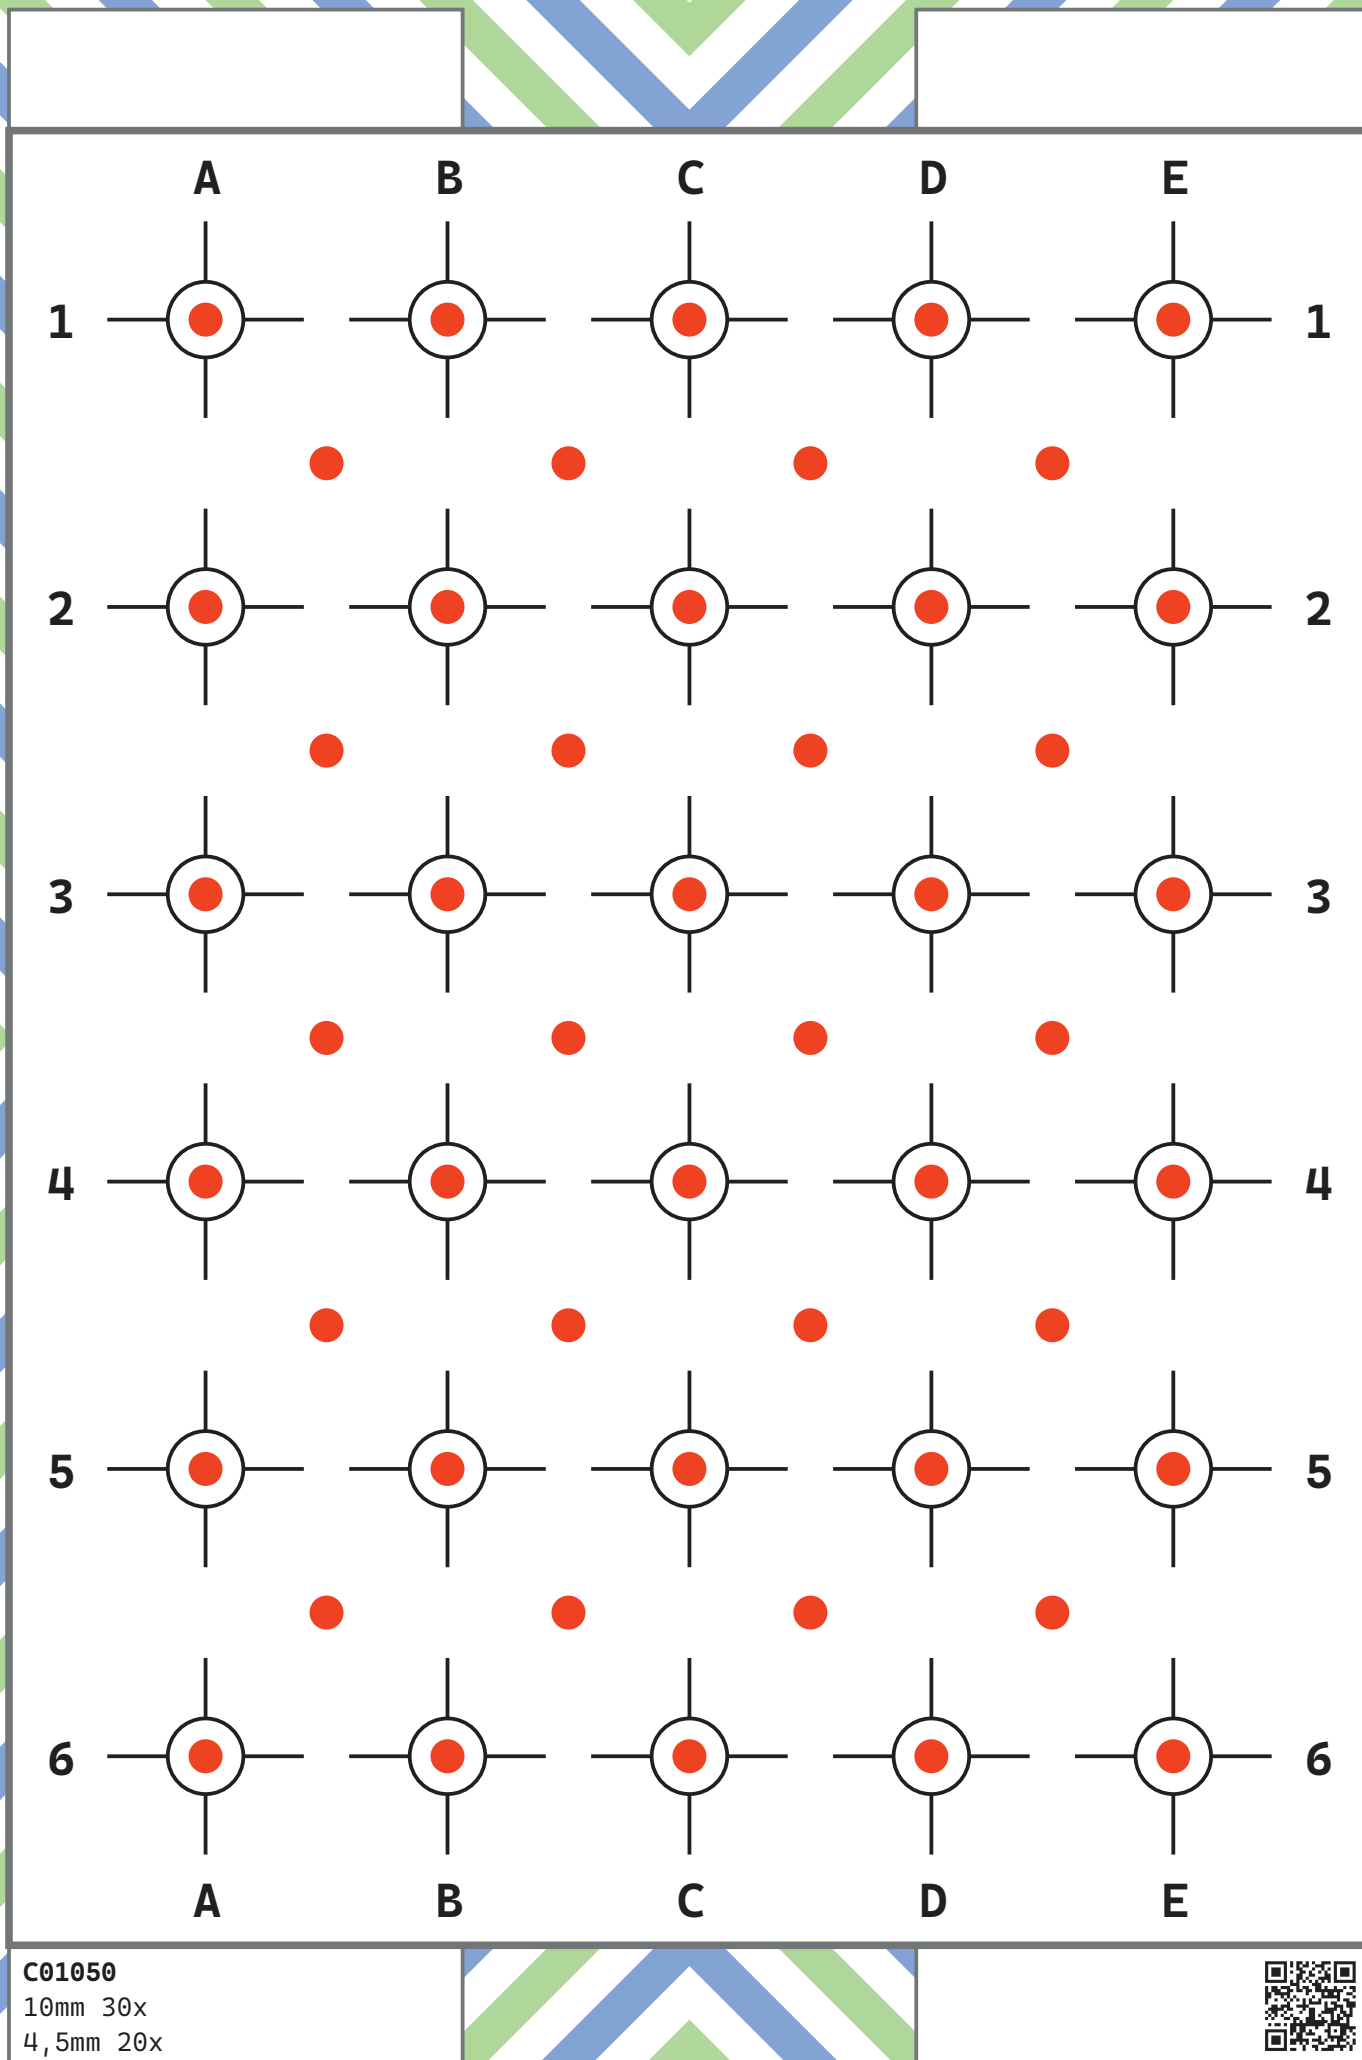

The C series, like the B series, is intended for universal use with support for improved communication and documentation.

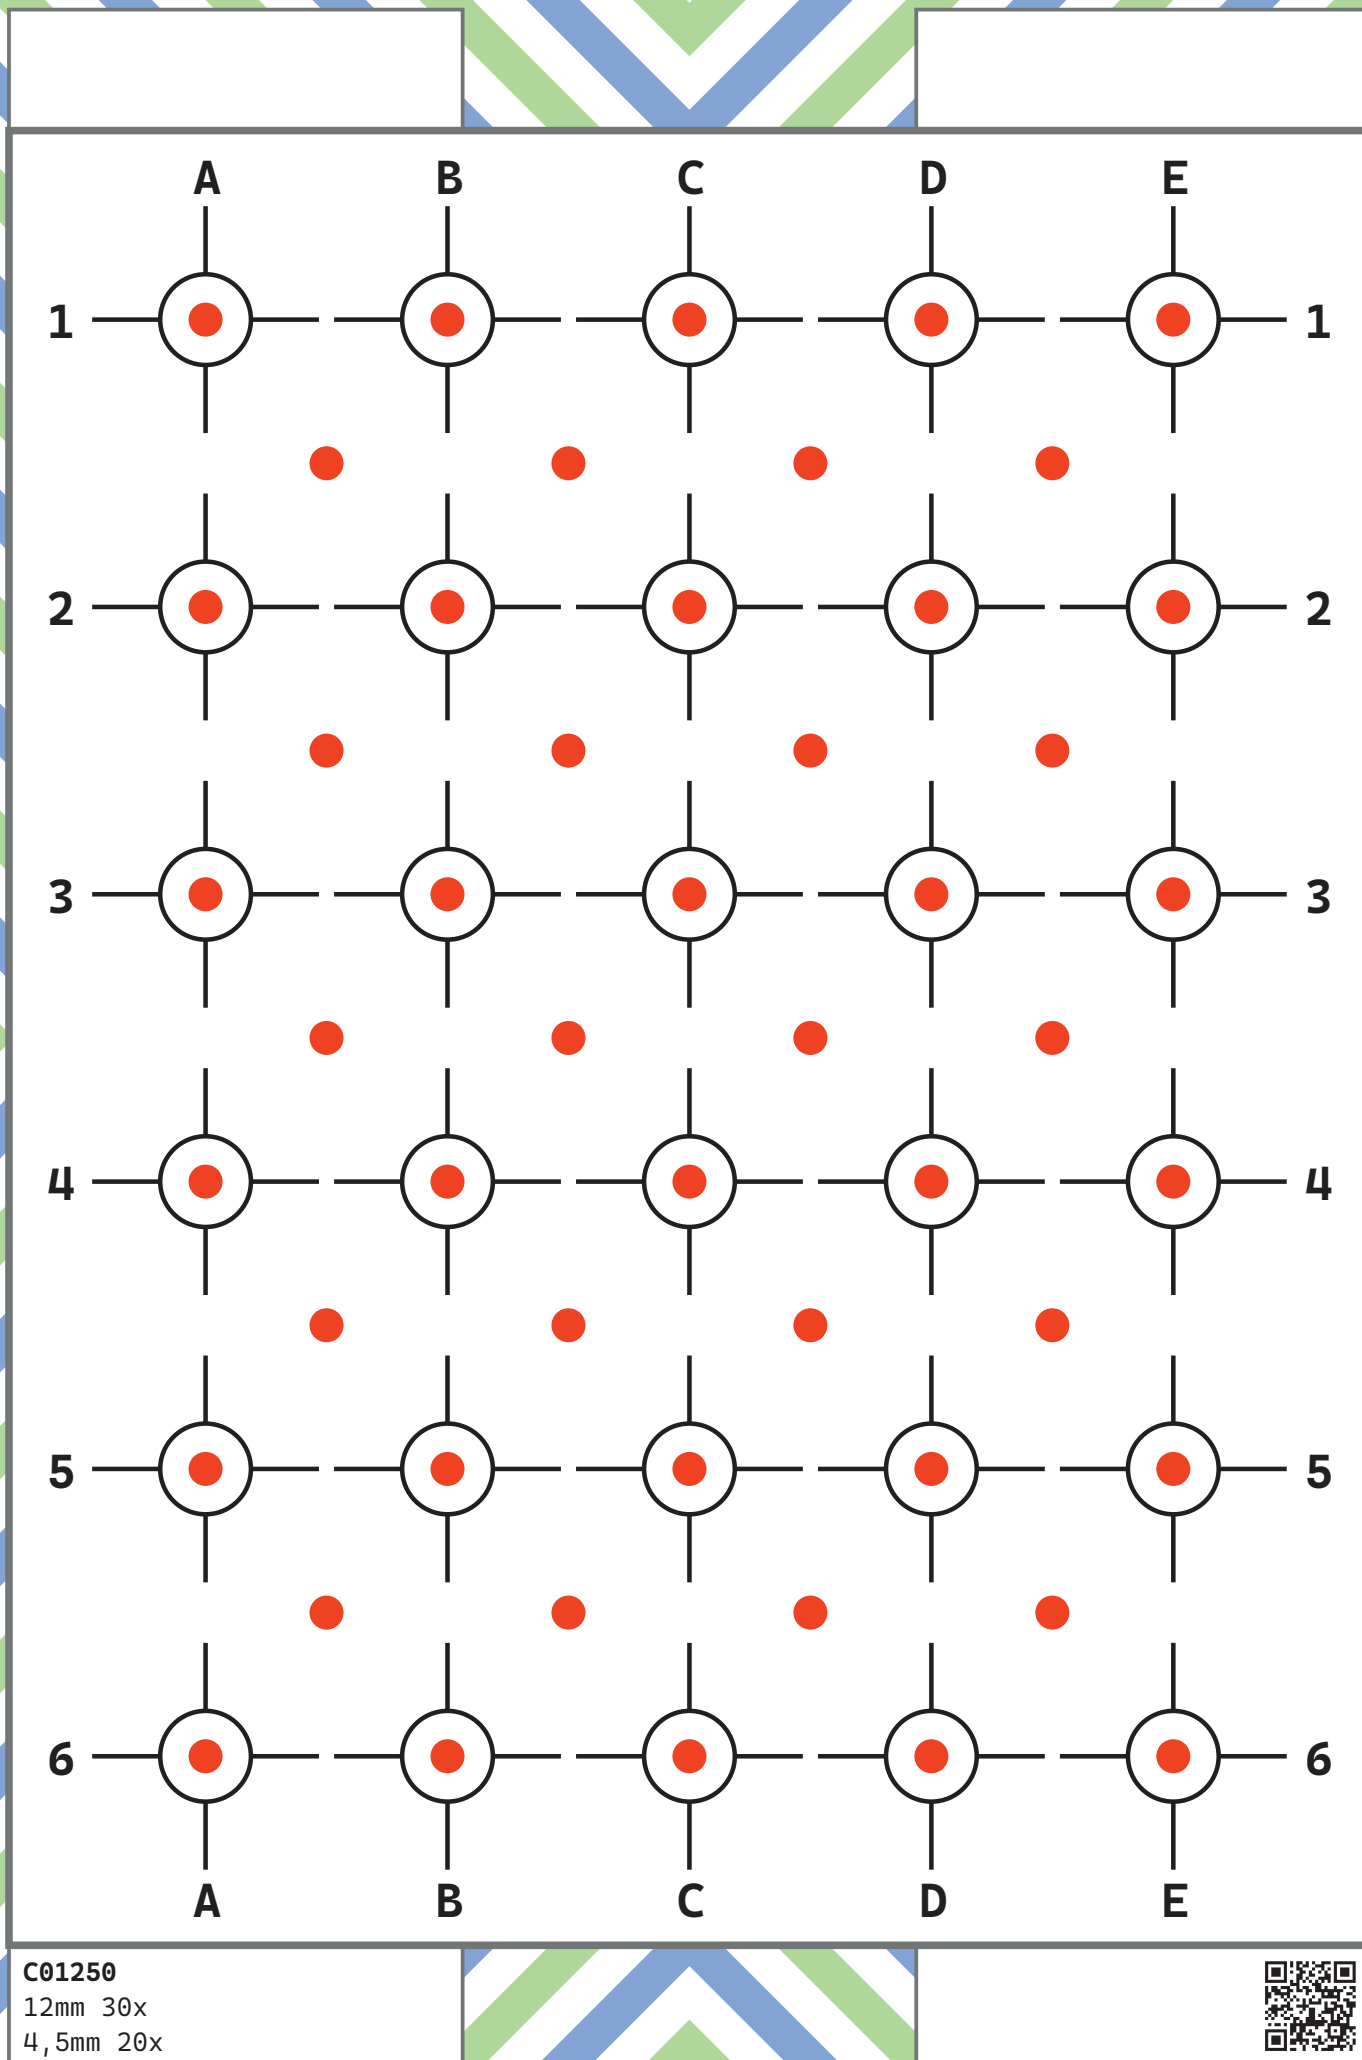

The mark consists of a red dot the size of a projectile, one ore multiple circles, and horizontal and vertical aligned lines as orientation.

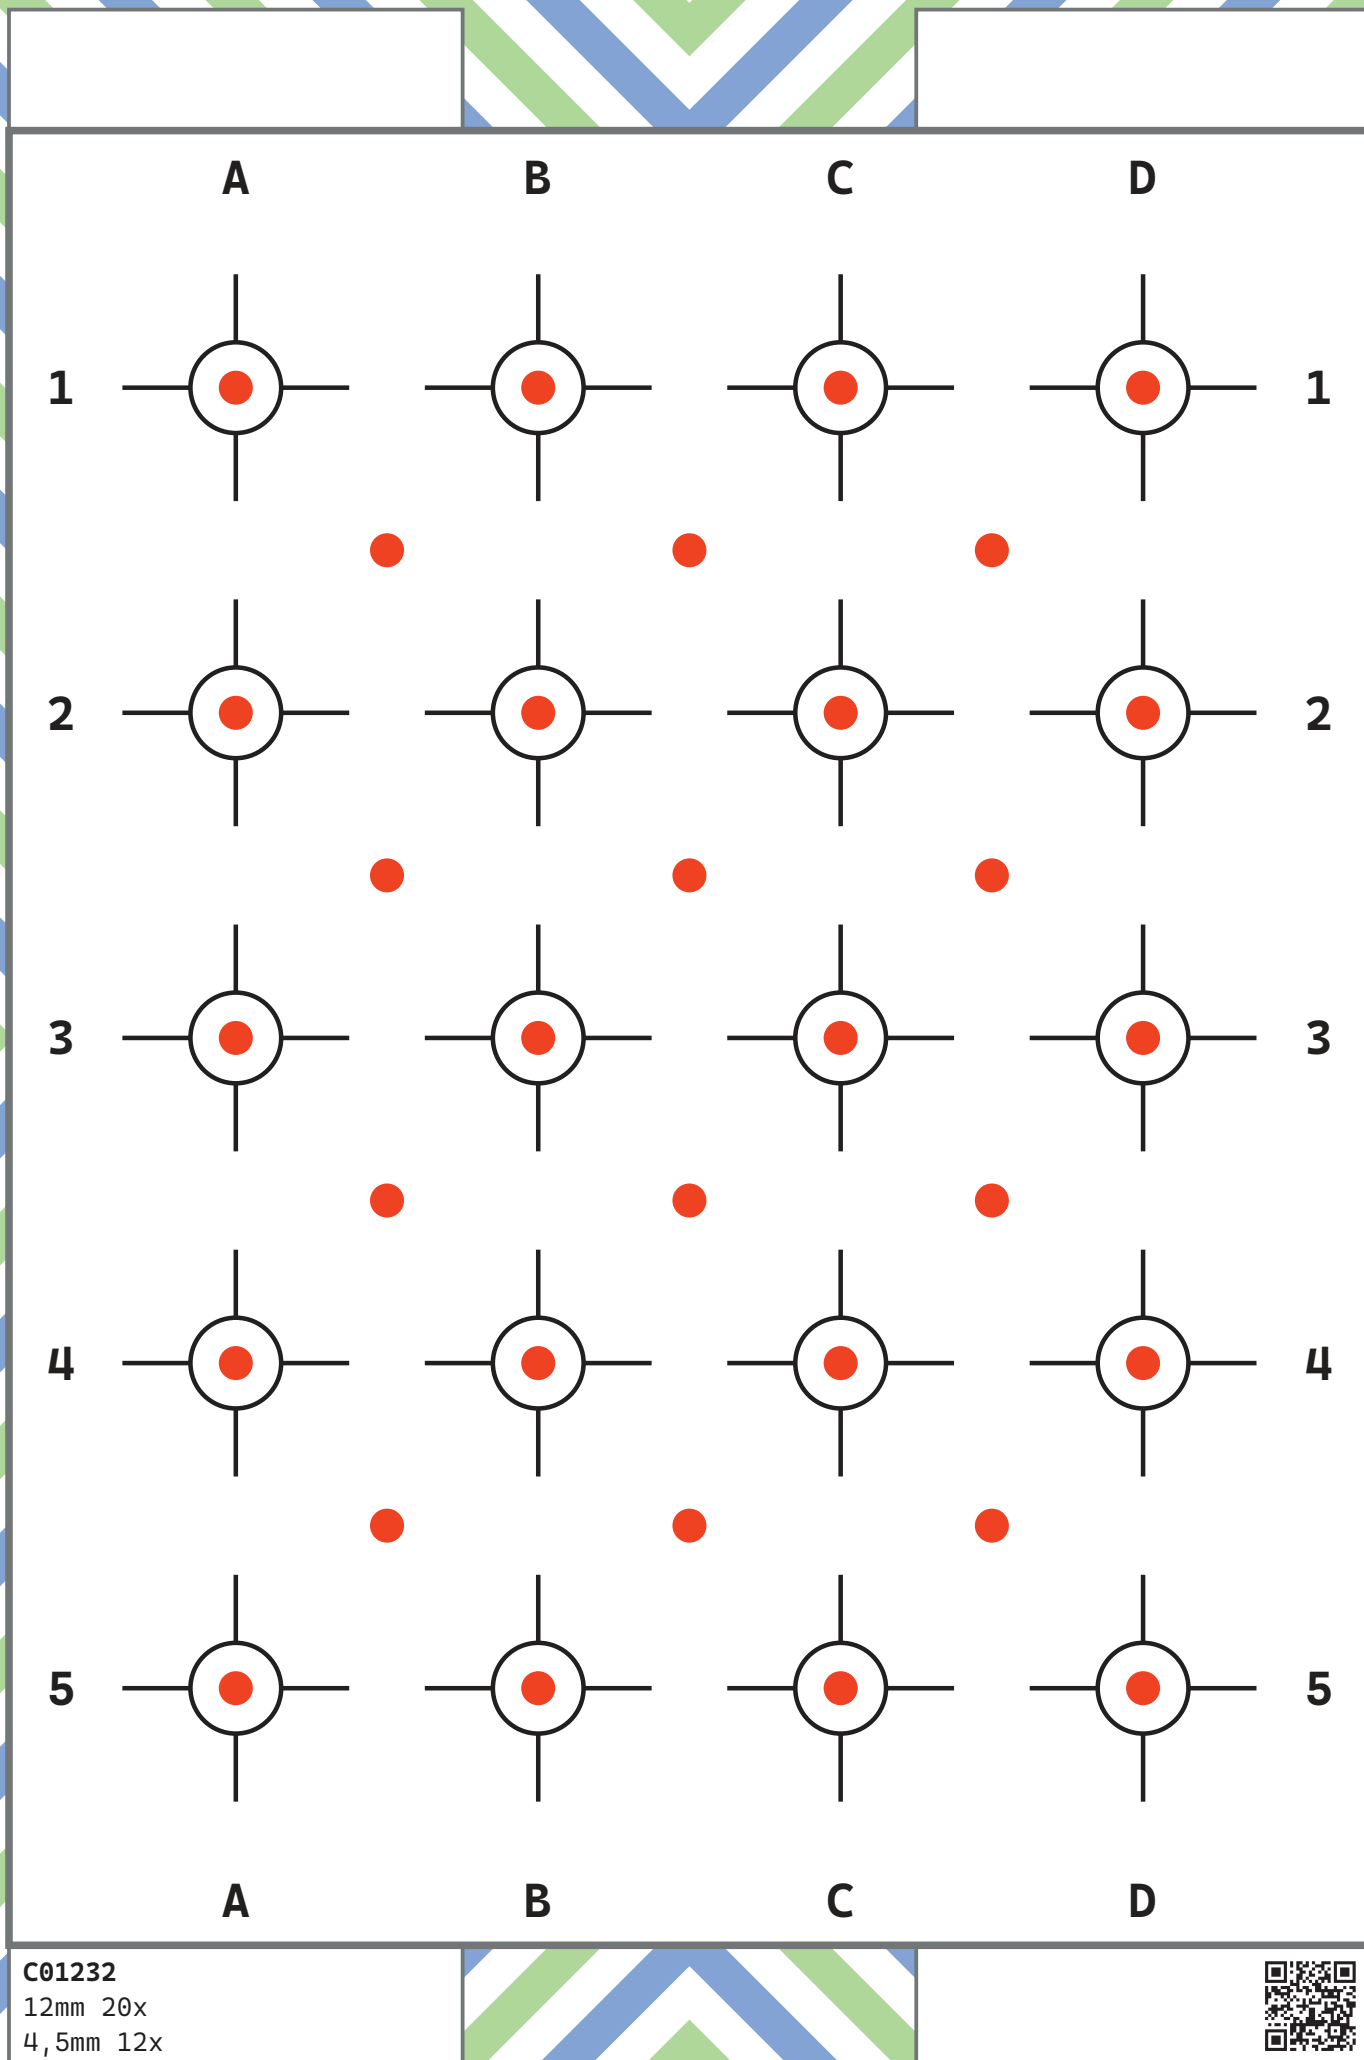

The columns and rows of the target marks are labelled.

Additionally there are smaller target marks placed in the space between the main marks.

D Series

Deutsch

Die D-Serie ist als Trainingsziel gedacht.

Die Zielmarken bestehen aus einem schwarzen 2mm-Punkt, genau einem Kreis und relativ kurzen Orientierungslinien.

Die Orientierungslinien sind diagonal ausgerichtet, damit sie nicht vom Fadenkreuz verdeckt werden.

Die Spalten und Zeilen der Zielmarken sind für eine bessere Kommunikation und Dokumentation beschriftet.

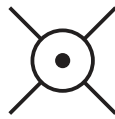

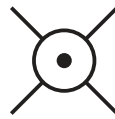

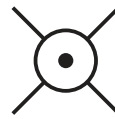

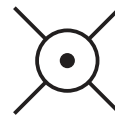

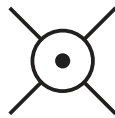

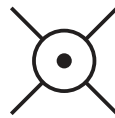

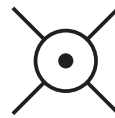

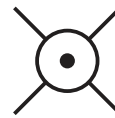

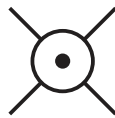

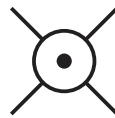

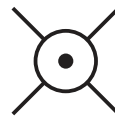

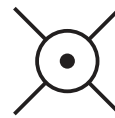

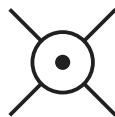

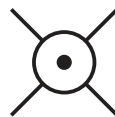

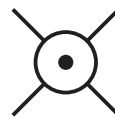

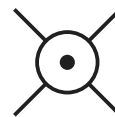

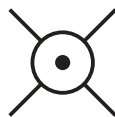

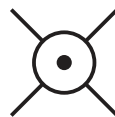

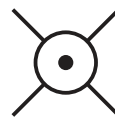

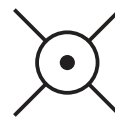

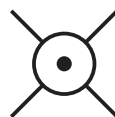

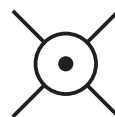

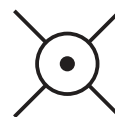

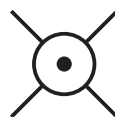

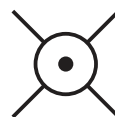

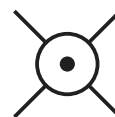

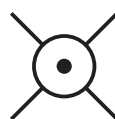

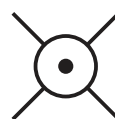

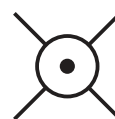

English

The D series is intended for practice.

The target mark consists of a 2mm black dot, one circle, and relatively short lines for orientation. The lines are arranged diagonally to prevent them from being obscured by the crosshairs.

Columns and rows of the target marks are labelled for better communication and documentation.

N Series

Deutsch

Die N-Serie ist für das Präzisionstraining gedacht.
Die Zielmarken bestehen aus einem schwarzen 2mm-Kreis im Zentrum und einem schwarzen Außenkreis.
Die Spalten und Reihen sind zur Kommunikation und Dokumentation beschriftet.

English

The N series is intended for precision practice
The target mark consists of a black 2mm circle in the centre, and a black outer circle.
Columns and rows are labelled for communication and documentation.

E Series

Deutsch

Die E-Serie soll im Training den Zielzone von Klappzielen ähneln.

Die Zielmarken bestehen nur aus einem rot gefüllten Kreis.

Um Ablenkungen zu vermeiden, sind keine weiteren Markierungen oder Beschriftungen angebracht.

Die Schutzzone am äußeren Rand ist in hellem Grau statt farbig schraffiert.

English

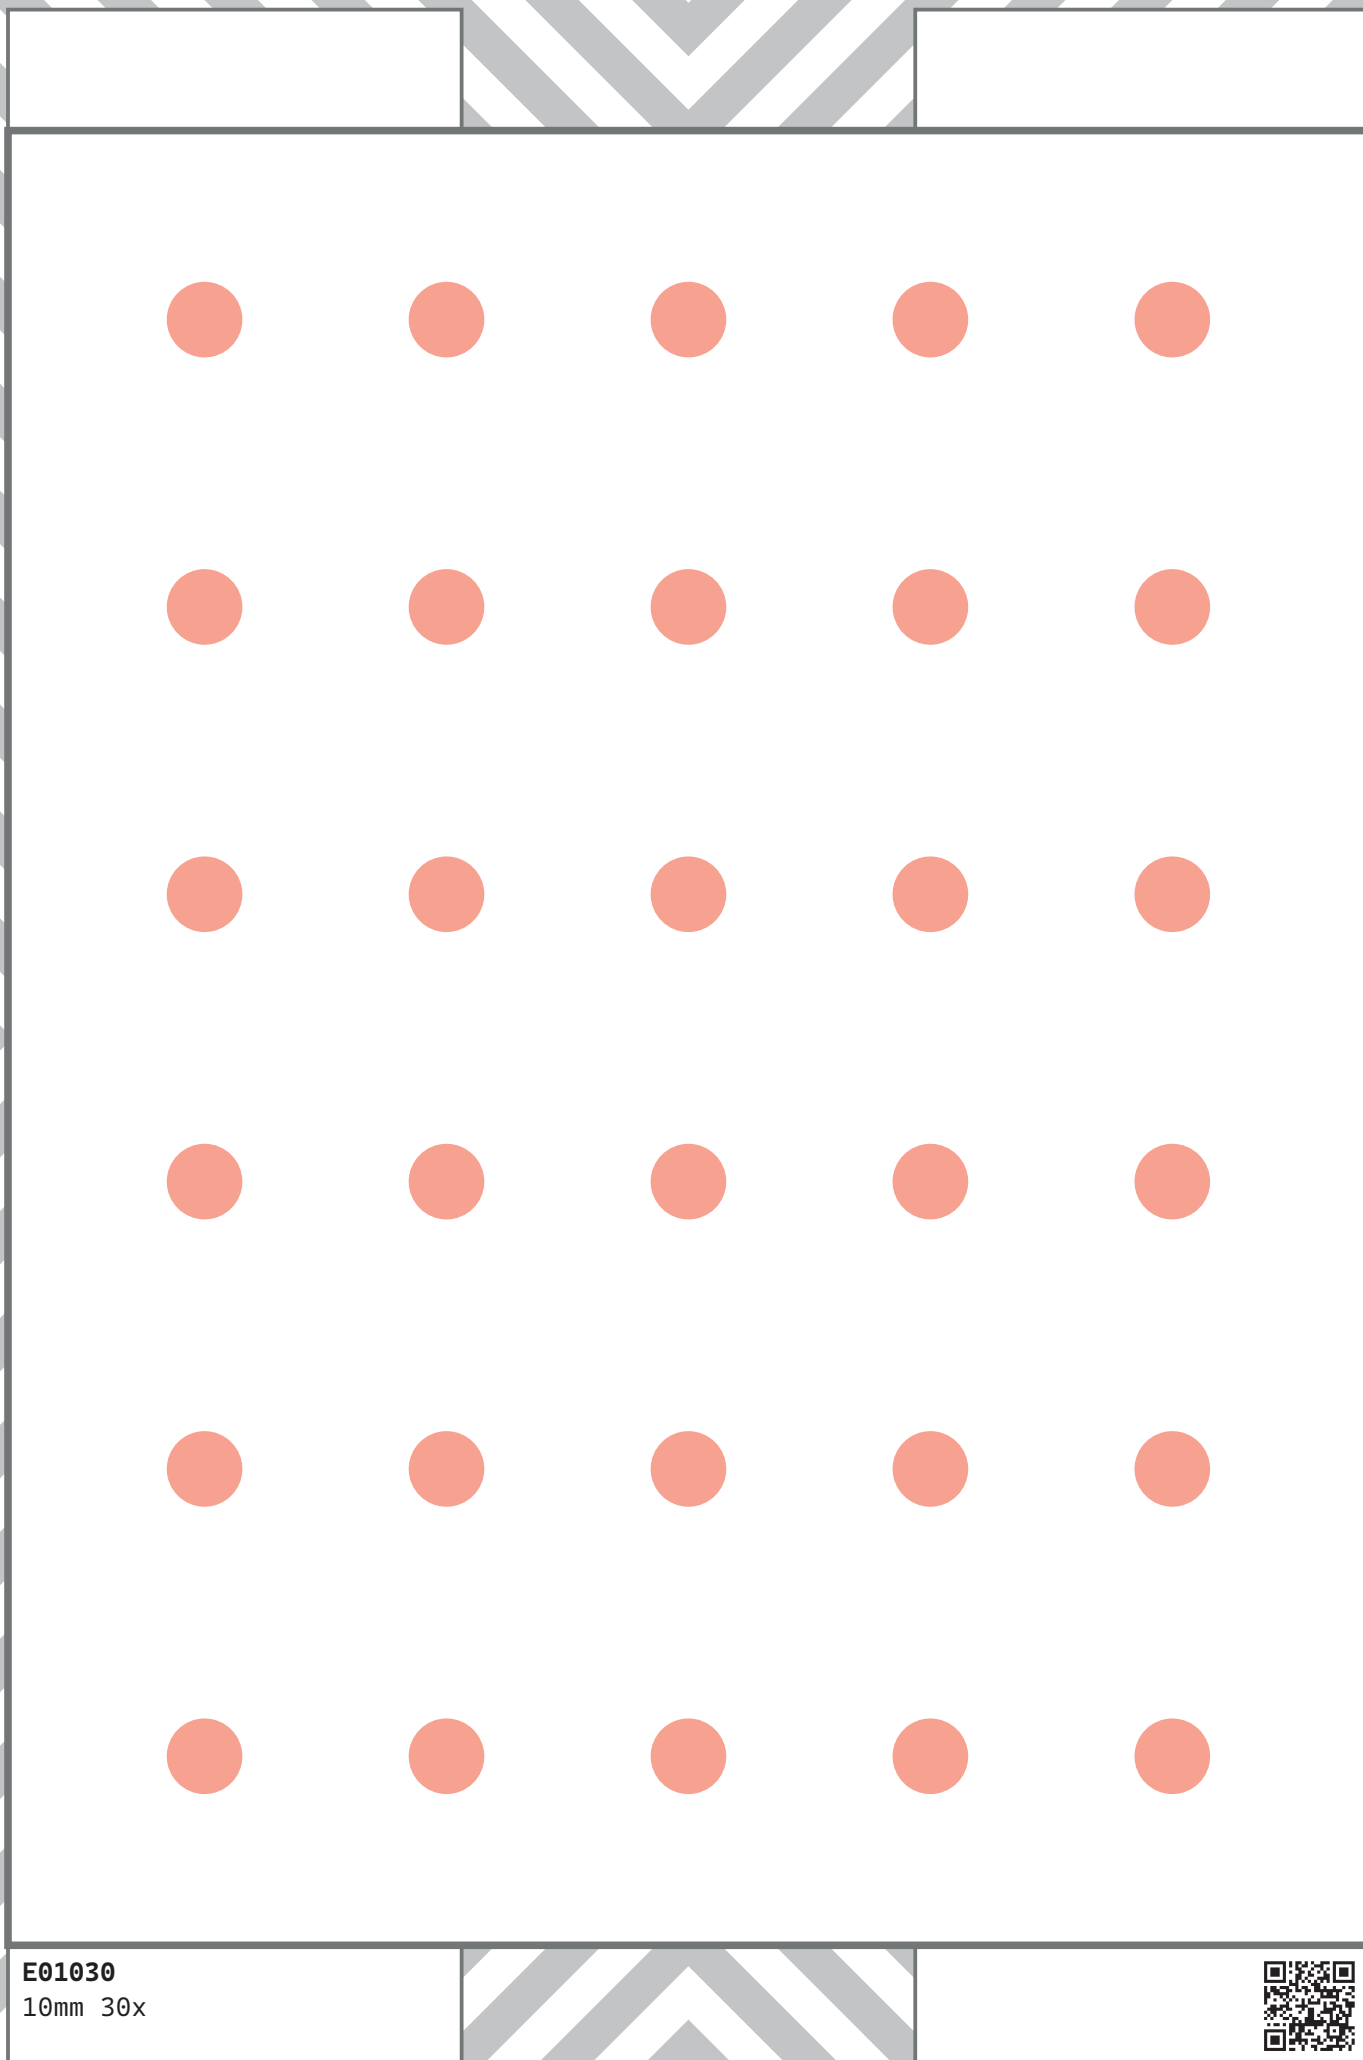

The E series is designed to resemble the hit zone of collapsible targets.

The target mark consists solely of a red filled circle.

To avoid distraction no other labels or markings are placed.

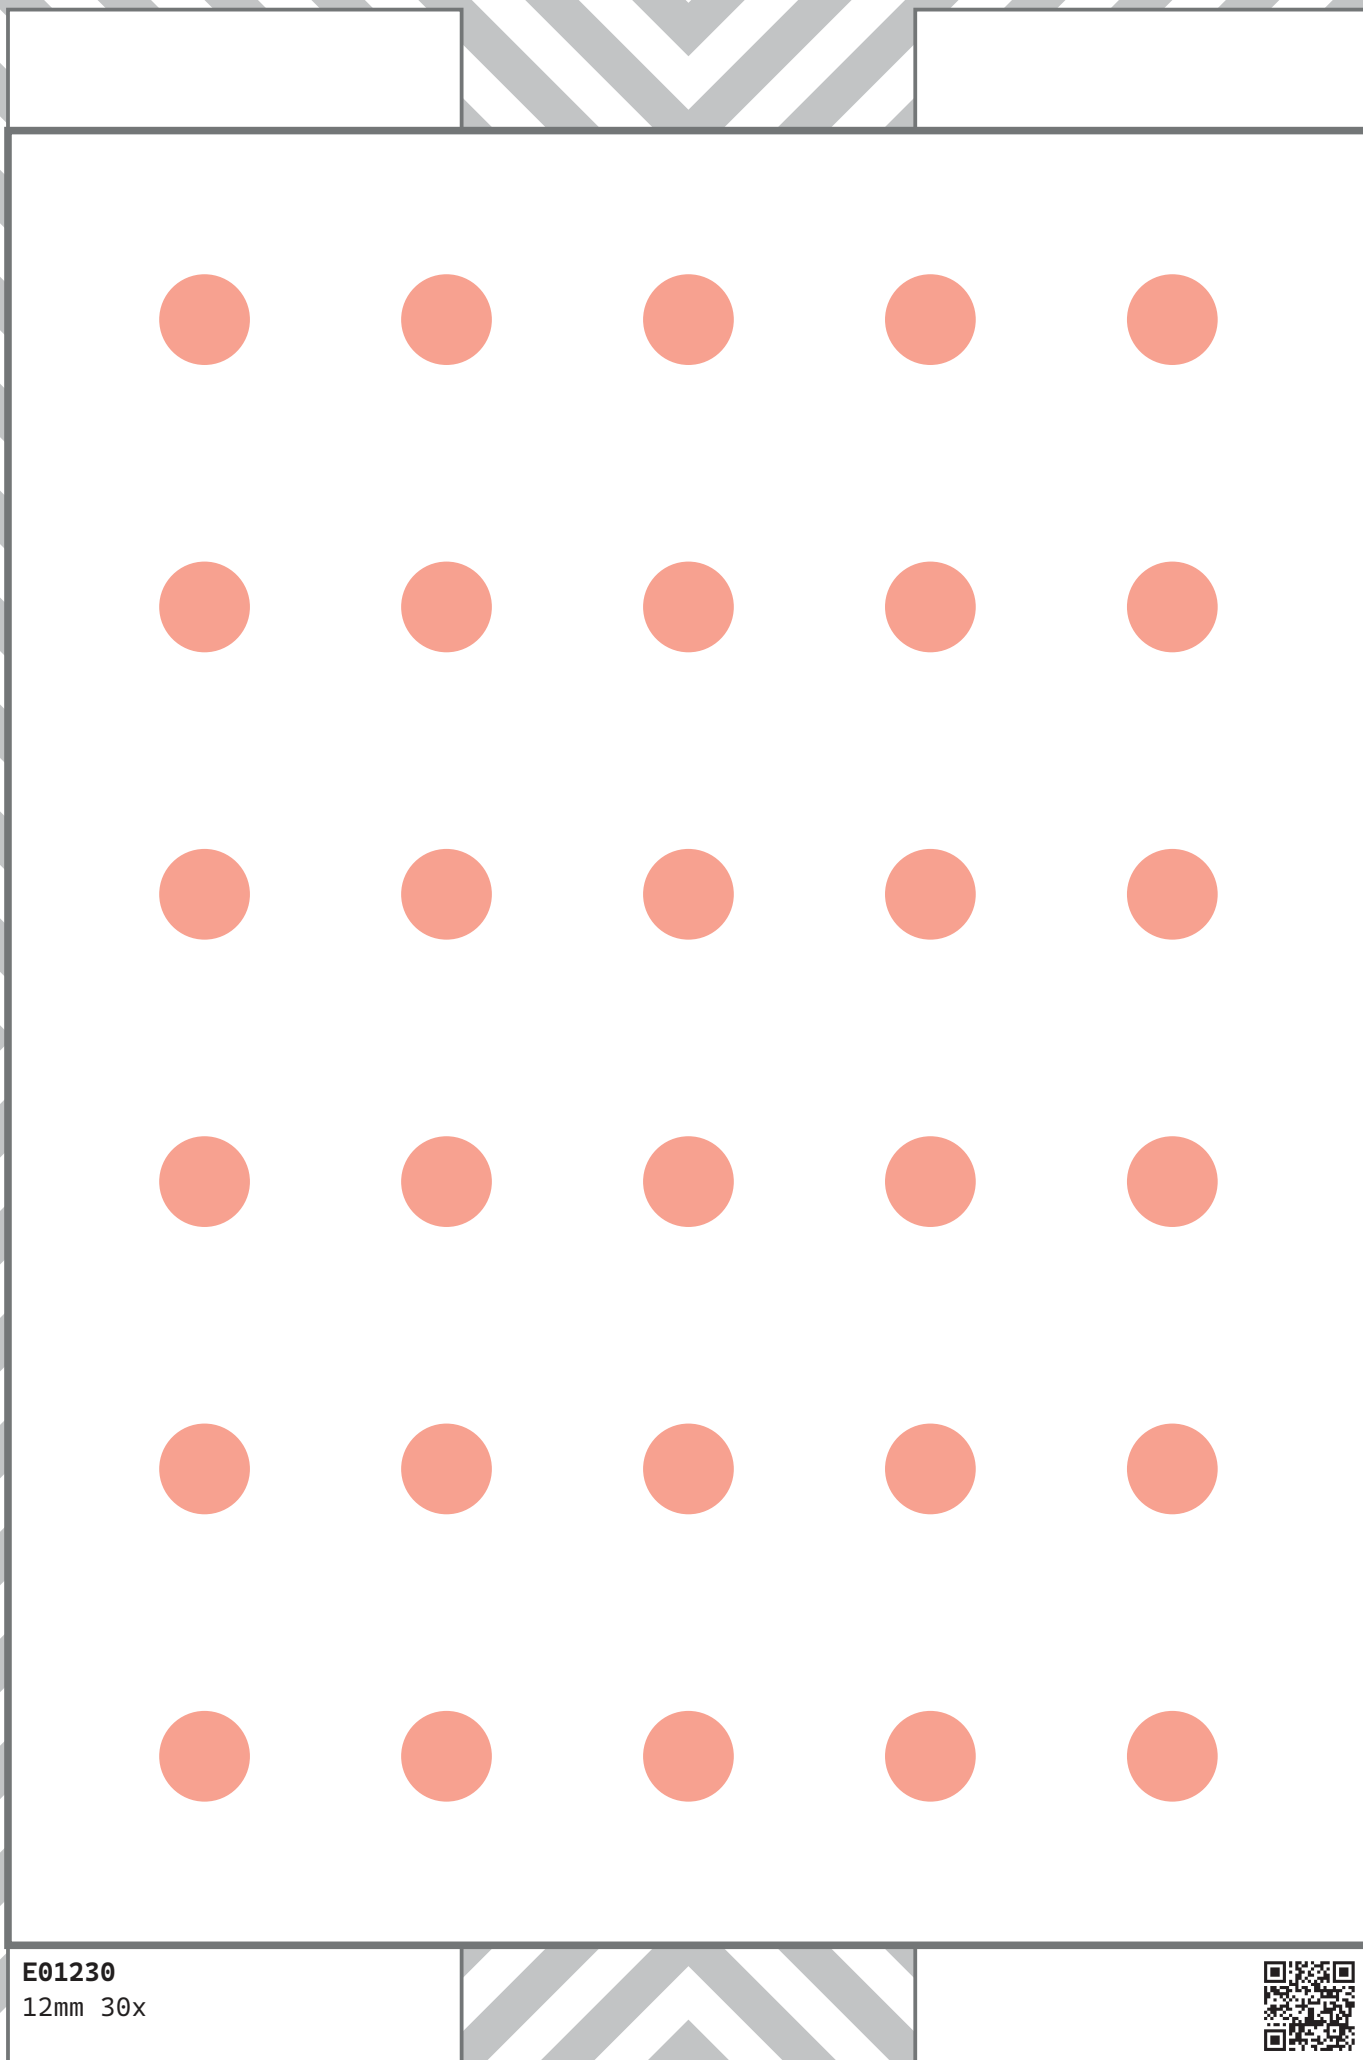

The protection zone on the outer edge is shaded in light gray instead of colours.

P Series

Deutsch

Die P-Serie ist für das Schießen nach Punkten gedacht.

Die Zielmarken bestehen aus einem roten Punkt in Projektilgröße und Kreisen im 5mm Abstand.

Der Zwischenraum zwischen einigen Kreisen ist für die bessere Orientierung auf größere Distanzen grau gefüllt.

Diagonale Linien verbessern die Orientierung.

Die Ringe sind auf den horizontalen und vertikalen Achsen mit der jeweiligen Punktezahl beschriftet.

English

The P series is designed for point-based shooting.

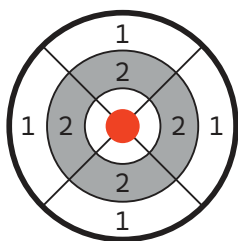

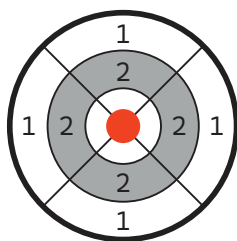

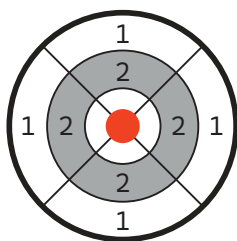

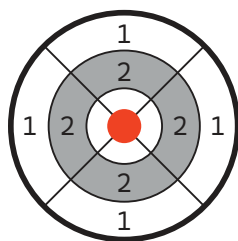

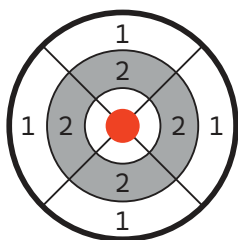

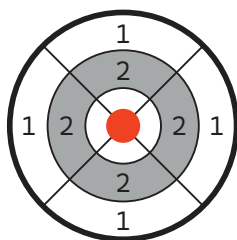

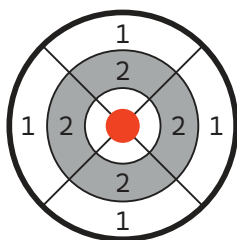

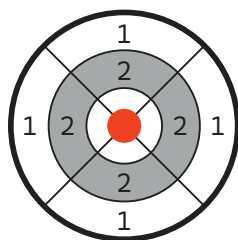

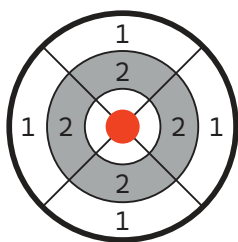

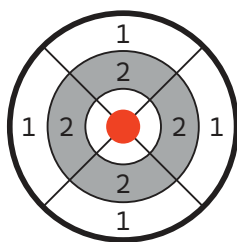

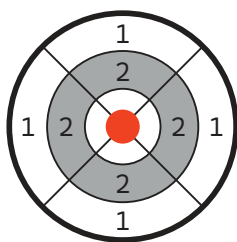

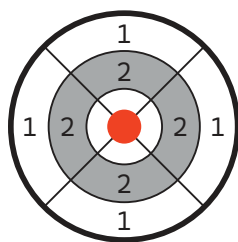

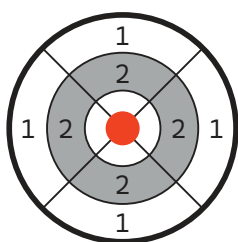

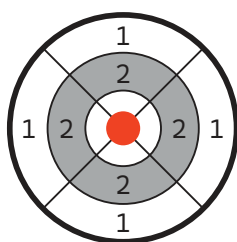

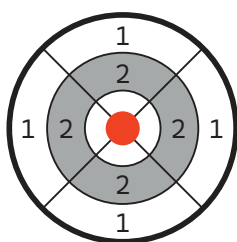

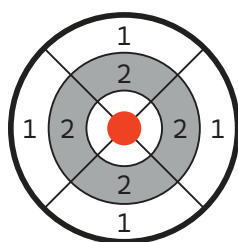

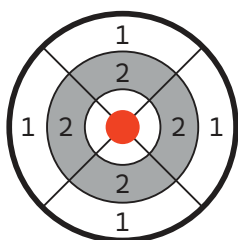

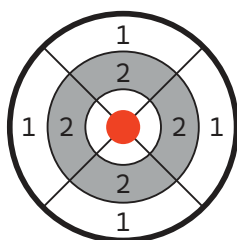

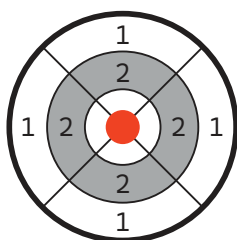

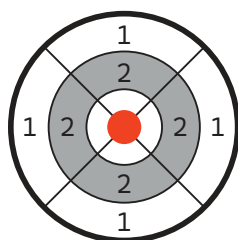

The target marks consist of a red dot the size of a projectile surrounded by circles spaced 5mm apart.

The gaps between some of the circles are filled with gray to make orientation easier at longer distances.

Diagonal lines further aid orientation.

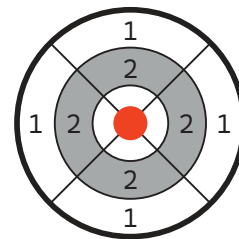

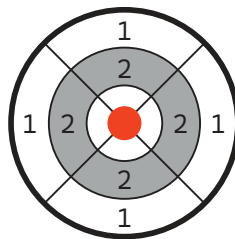

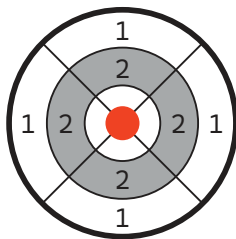

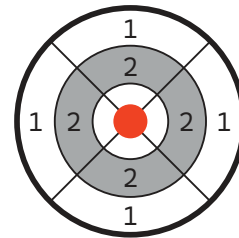

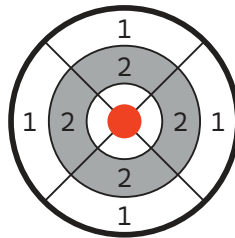

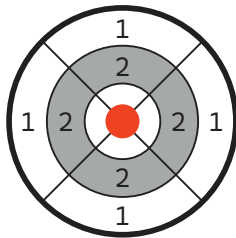

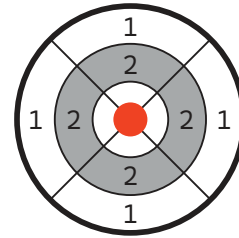

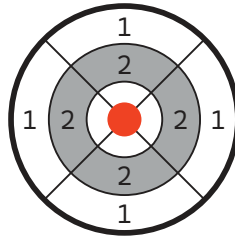

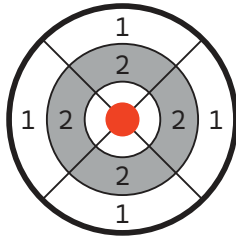

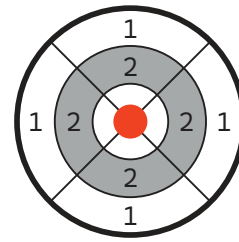

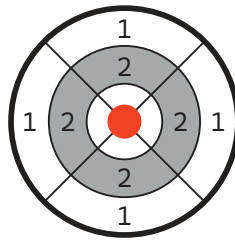

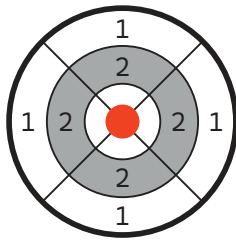

The rings on the horizontal and vertical axes are labelled with their corresponding point values.

G Series

Deutsch

Die G-Serie ist dafür gedacht, Justierungen mit zusätzlicher horizontaler und vertikaler Orientierung durchzuführen. Sie können auch dabei helfen, Windeinfluss besser einzuschätzen.

Die Zielmarken bestehen aus einem roten Punkt in Projektilgröße und einem schwarzen Kreis. Die Marken sind jeweils in der Mitte eines 1-Zentimeter-Gitter platziert.

Zur Kommunikation und Dokumentation sind die Zielmarken nummeriert.

English

The G series is designed for making adjustments with added horizontal and vertical orientation. It can also help gauge wind influence more accurately.

The target markers consist of a red dot the size of a projectile and a black circle. Each marker is positioned at the centre of a 1-centimetre grid.

For communication and documentation purposes, the target markers are numbered.

K Series

Deutsch

Die K-Serie ist eine Erweiterung der G-Serie und ebenfalls dafür gedacht, Justierungen mit zusätzlicher horizontaler und vertikaler Orientierung durchzuführen.

Die Zielmarken bestehen aus einem roten Punkt in Projektilgröße und einem schwarzen Kreis. Die Marken sind jeweils in der Mitte eines 1-Zentimeter-Gitter platziert.

Zusätzlich sind diagonale Kreuze in den vier Quadranten der Gitter platziert. Sie können als zusätzliche Ziele nach erfolgter Justierung genutzt werden. Zur Kommunikation und Dokumentation sind die Zielmarken nummeriert.

English

The K series is an extension of the G series and is likewise intended for making adjustments with added horizontal and vertical orientation.

The target markers consist of a red dot the size of a projectile and a black circle. Each marker is positioned at the centre of a 1-centimetre grid.

In addition, diagonal crosses are placed in the four quadrants of the grid.

These can be used as extra reference points after an adjustment has been carried out.

For communication and documentation purposes, the target markers are numbered.

M Series

Deutsch

Die M-Serie ist zur Überprüfung der Präzision eines Luftgewehrs gedacht.

Als Maßstab wird eine Bogenminute (minute of angle – MOA) verwendet.

Liegt das Zentrum des einschlagenden Projektils innerhalb einer Bogenminute, wird das Gewehr als präzise angesehen.

Die Zielmarken in der M-Serie bestehen aus einem rot gefüllten Kreis und weißen diagonalen Orientierungslinien.

Die Größe der Marken richtet sich nach der Schussentfernung und berechnet sich aus der jeweiligen Winkelöffnung plus dem Projektildurchmesser.

Bei der Beurteilung müssen demzufolge alle Einschusslöcher vollständig innerhalb der Zielmarke liegen.

Die Zielmarken sind in Spalten angeordnet. Wobei jede Spalte für eine andere Schussentfernung berechnet ist.

English

The M-Series is intended for checking the precision of an air rifle.

The reference unit is a minute of angle (MOA). If the centre of the impact point falls within one minute of angle, the rifle is considered precise.

The target marks in the M-Series consist of a red-filled circle with white diagonal alignment lines.

The size of the marks is determined by the shooting distance and is calculated from the corresponding angular opening plus the projectile's diameter.

Consequently, for the evaluation all shot holes must lie completely inside the target mark.

The target marks are arranged in columns, each column being calculated for a different shooting distance.

M Series (Metre)

Entfernung Distance (m)	Winkelöffnung Angle Opening (mm)	Größe der Zielmarke Size of Target Mark (mm)

S Series

Deutsch

Die S-Series umfasst verschiedene Druckvorlagen, die jeweils für einen spezialisierten Zweck gedacht sind.

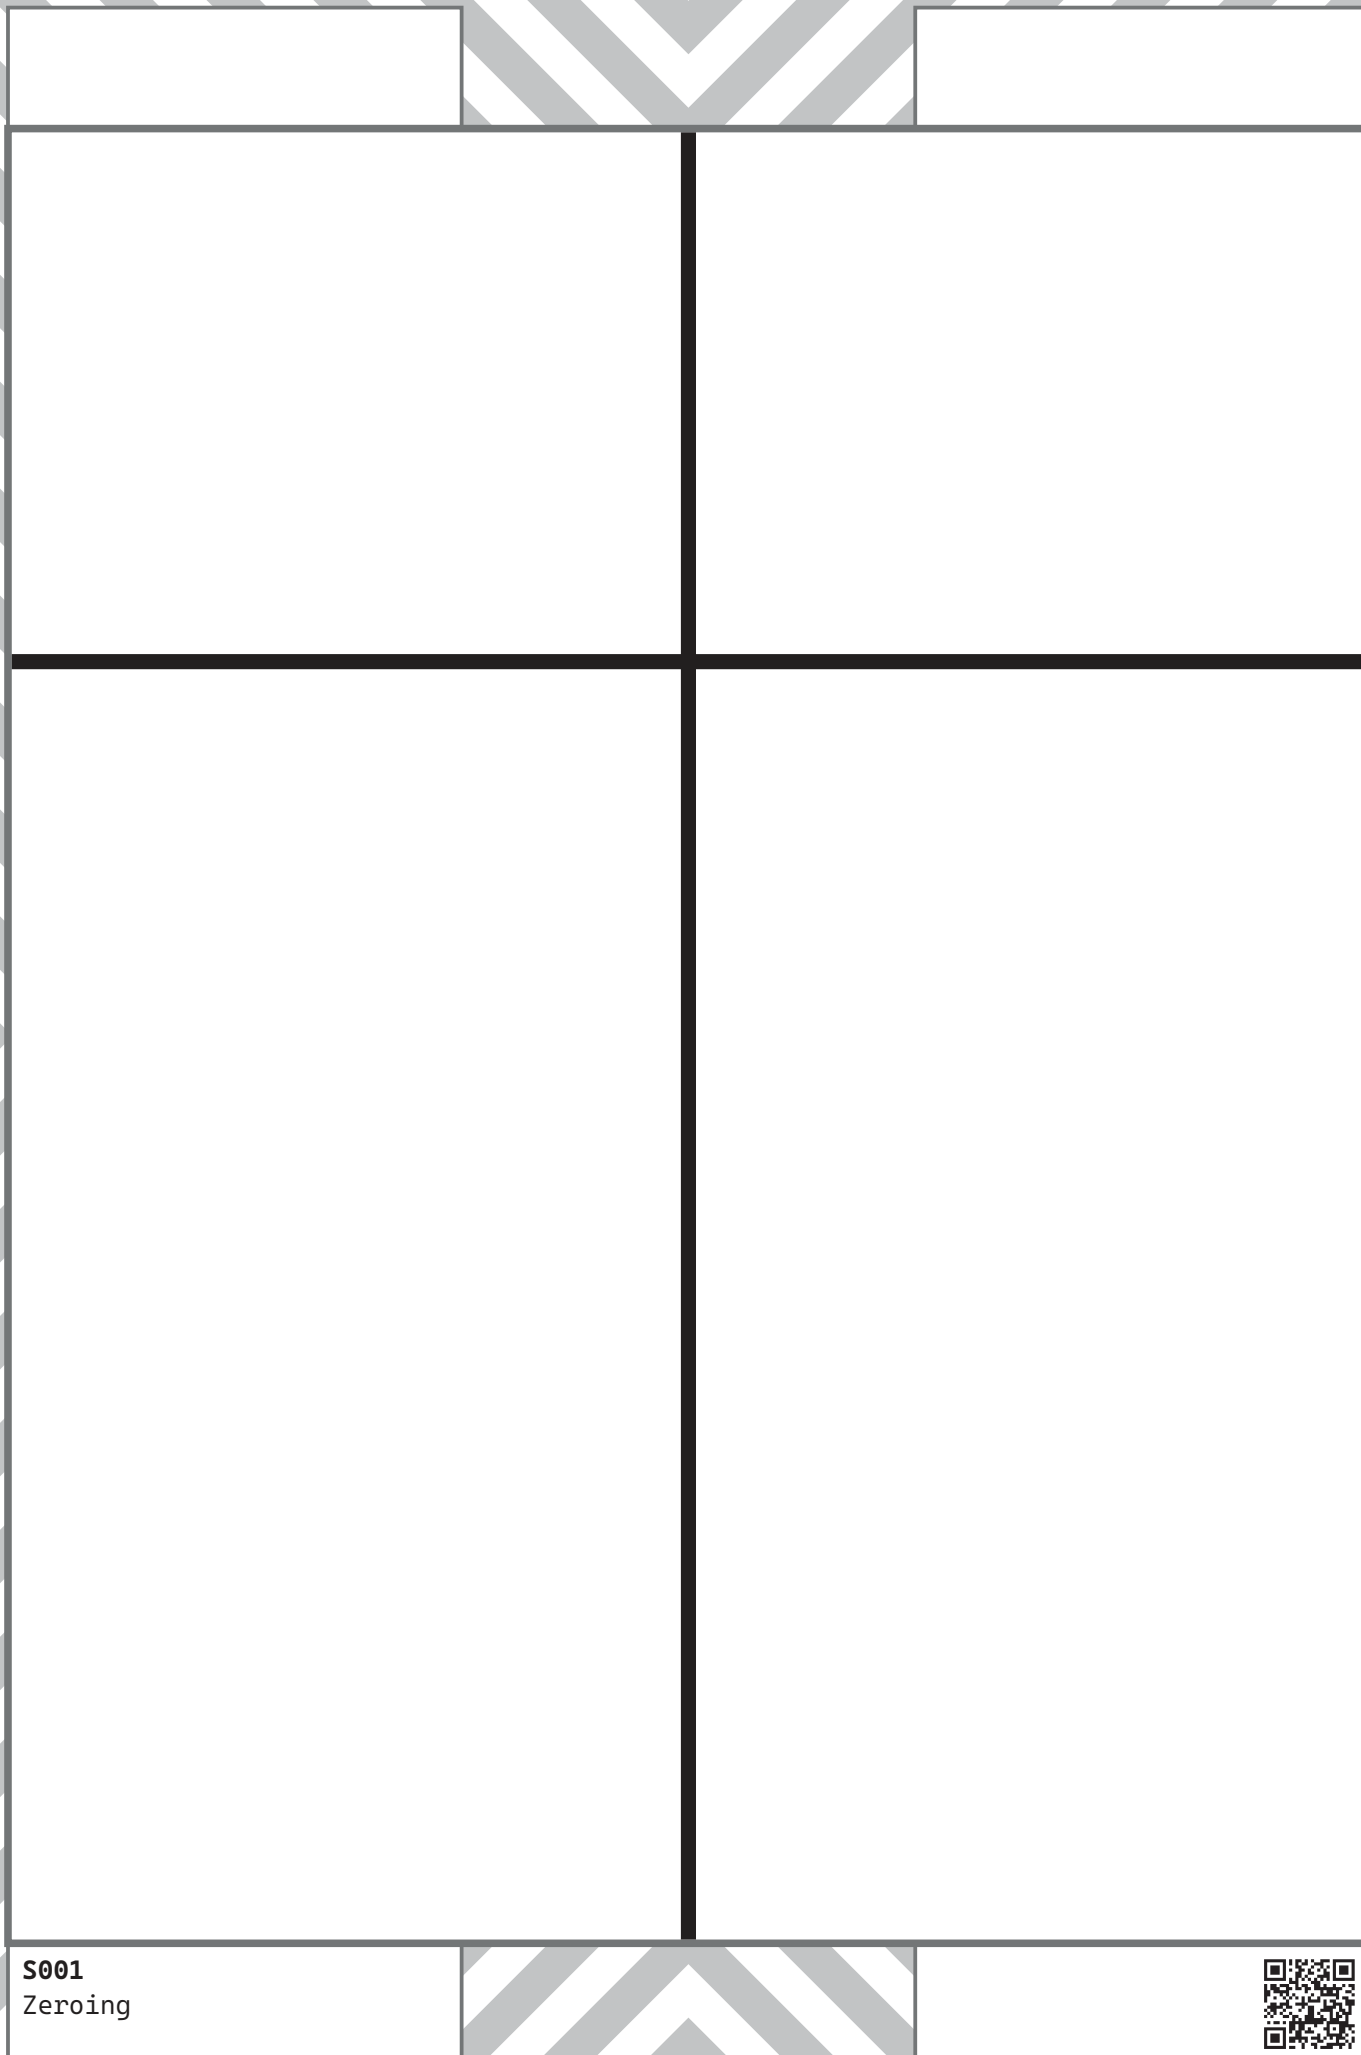

Z. B. Einschießen auf großen Entfernungen oder präzises Einstellen einer Zieloptik.

English

The S-Series includes a range of miscellaneous printable templates, each designed for a specific, specialized purpose.

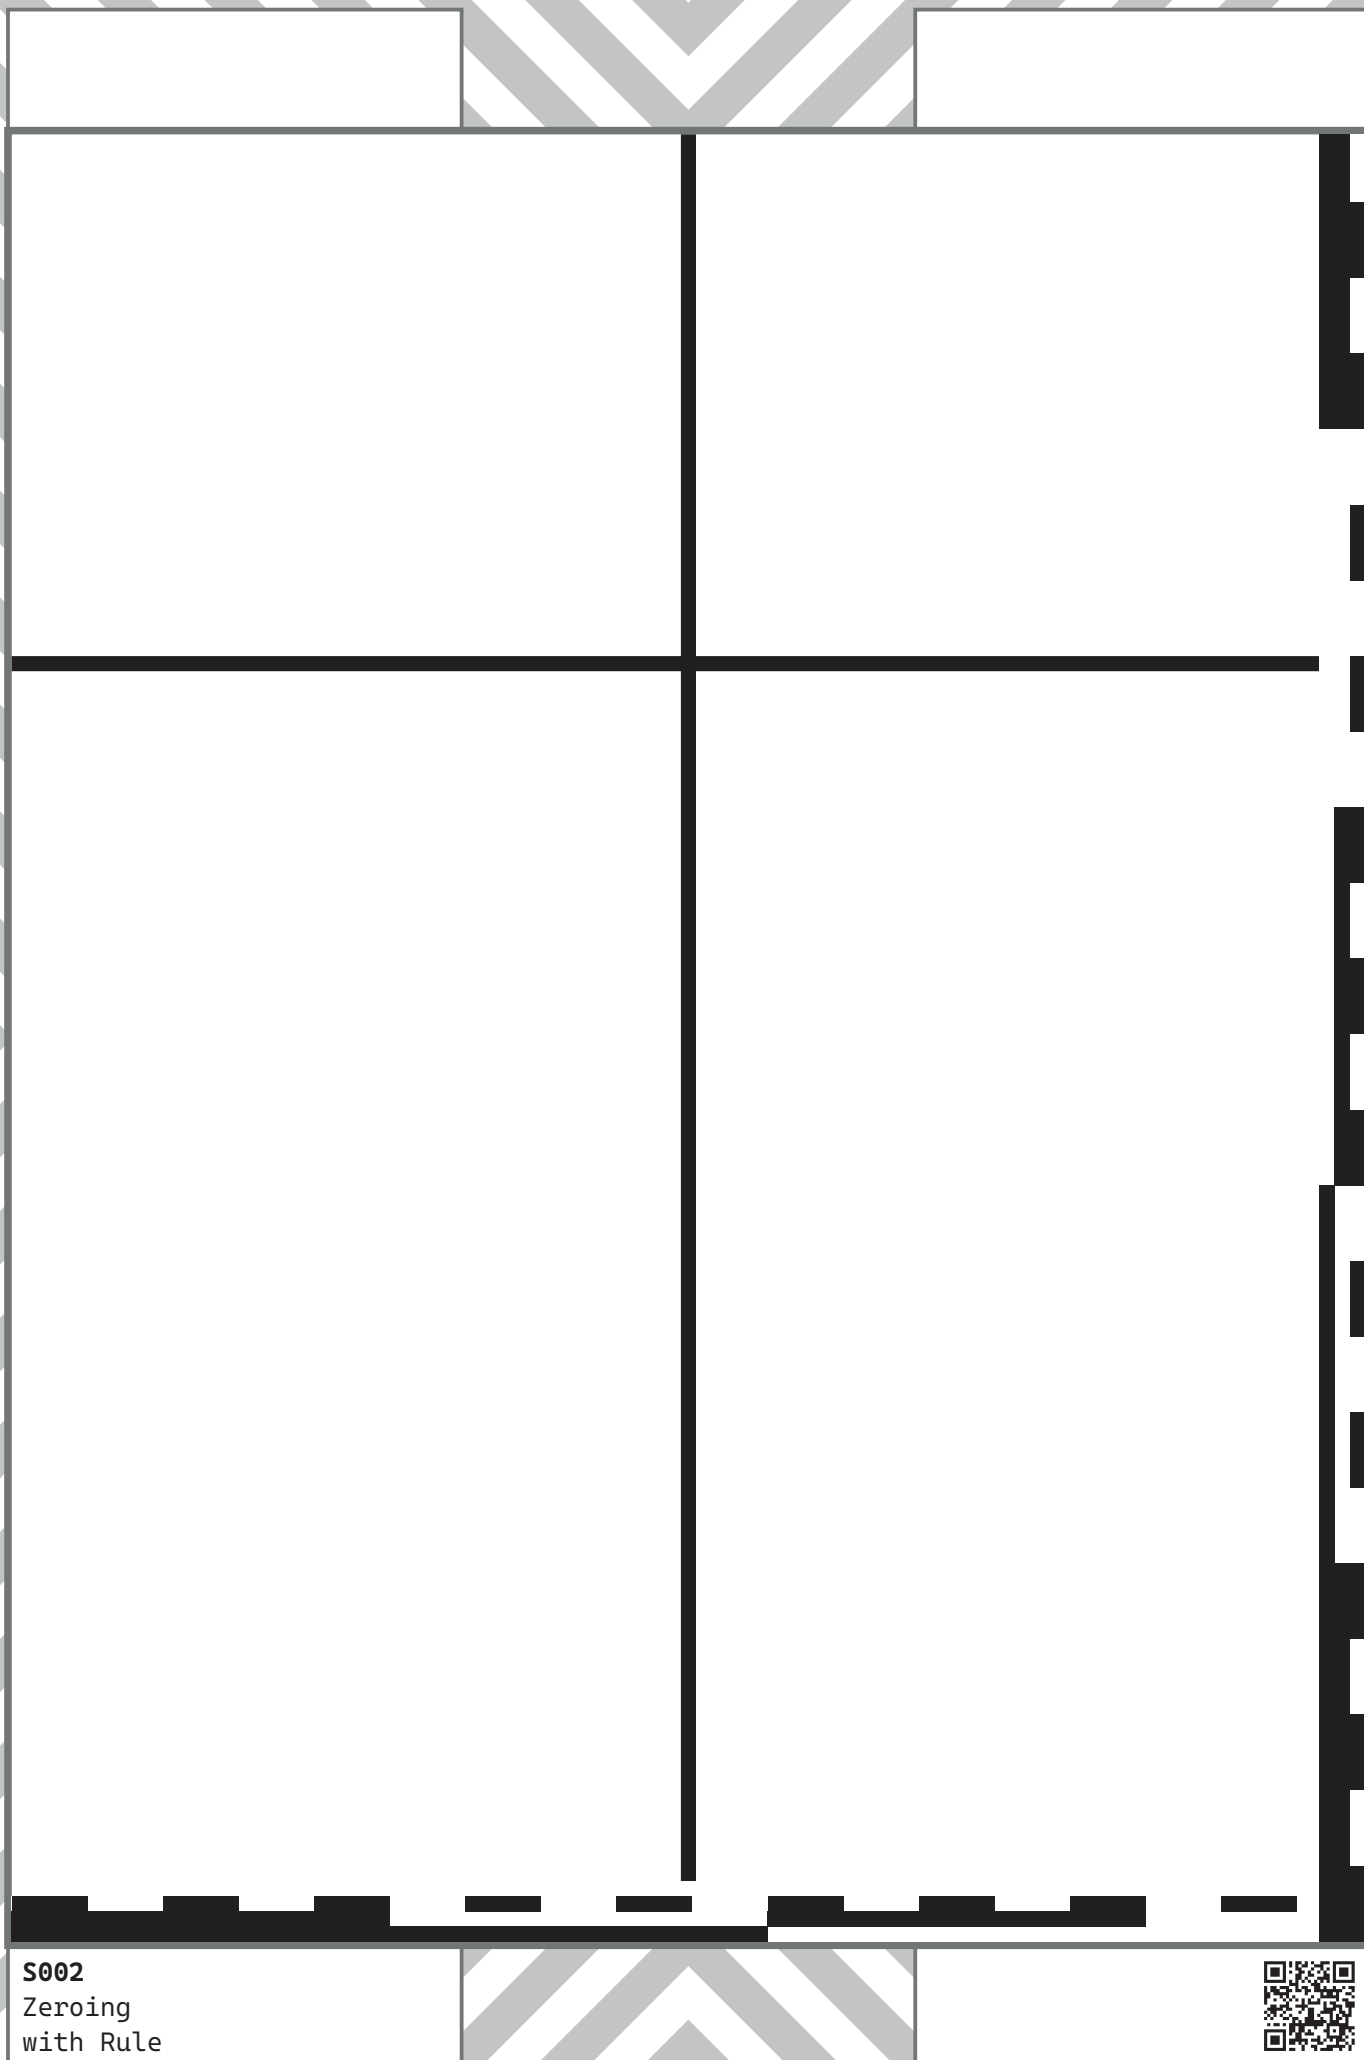

E. g., long-range zeroing and precise adjustment of a sighting optic.
